What happens to our graduates?

Camille AUBRY

DEGREE

2023
Master's degree in Earth and Planetary Sciences, Environment, Earth and Planetary Sciences (EPS) programme.

WORK EXPERIENCE

2023
"I was hired on 1 December 2023 after conducting some research starting in early September."

CURRENT POSITION

APC Engineering in Vigneux de Bretagne
Geotechnical Engineer, Project Manager

THE ADVANTAGES OF HER DEGREE & TRAINING

"My training at Nantes University allowed me to develop my writing skills, which are very important in my current job because I produce a lot of reports. It also enabled me to develop my organisational skills in the various deliverables requested. Finally, it enabled me to develop my teamwork skills.

The strengths of my training:

- Teaching in English
- A wide range of professional opportunities thanks to the many tools presented and developed during the course
- Discussions within an international class.

A PIECE OF ADVICE?

"Don't forget that personal work is important!"
